New in the cowshed

The fastest connection: Lactocorder hose connector
Often seemingly insignificant little things make life so much easier. Our new hose connector may be just such an item. Once you have used it you will never want to change to anything else. A little twist and the connection is perfect. The device is equally quick to remove.

The WMB hose connector
Simple. Fast. And never leaks! Further explanations would be superfluous. Just give it a try! Nothing could be easier: click!
